

Dear artists, musicians, DJ*anes and creative people,

we, the Fatalists, want to ensure that nobody who is visiting or working at the FATAL gets discriminated by the music that is played or any other kind of art performed at our place. Please reflect if you can agree with that before booking.

We do not support music or art that discriminates humans because of their gender, disability, sexuality, origin, looks or body. Throwing one's weight around, chauvinism, patriotism, nationalism and antisemitism are things we do not want and need at our bar.

Please bear with us, if we may be telling you that we dislike the stuff going on, or even pause the event.

Freedom of art and speech, parodies, social- and system criticism, sarcasm and satire – big topics with a lot of potential to talk and discuss. Don't hesitate to get in contact or ask us.

Sincerely

your FATAL team
